The Honorable Jocelyn D. Boyd
Chief Clerk/Administrator
Public Service Commission of South Carolina
101 Executive Center Drive
Columbia, SC 29211

RE: Application of JACABB Utilities, LLC for approval of sewer rates, terms and conditions for The Shoals and Anchor Point in Anderson, South Carolina – Docket Number 2012-199-S.

Dear Ms. Boyd:

Enclosed for filing are the original and one (1) copy of the Application of Jacabb Utilities, LLC in the above reference matter. I would appreciate your acknowledging receipt of this document by date-stamping the copy of this application and returning it to me via first class mail.

By copy of this letter, we are providing a copy of this filing to the Office of Regulatory Staff and enclose a certificate to that effect.

If you have any questions or need additional information, please do not hesitate to contact me.

Sincerely,

ALLEN & EAKES

BEFORE
THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 2012-199-S

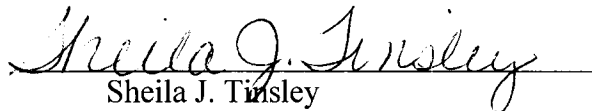

IN RE:

Application of JACABB Utilities, LLC for)	
approval of sewer rates, terms and)	
conditions for The Shoals and Anchor)	APPLICATION FOR RATE
Point in Anderson County, South Carolina)	INCREASE AND CHANGES
		IN TERMS AND CONDITIONS

JACABB Utilities, LLC ("Applicant" or "Utility") hereby applies to the Public Service Commission of South Carolina ("Commission" or "PSC") for approval of an increase in its existing rates and charges pursuant to the Commission's rules and regulations and S.C. Code Ann. § 58-5-240. In support of its application, Applicant provides the following information:

- 225
#1057
1. Applicant is a limited liability company organized and existing under the laws of the State of South Carolina.
 2. Applicant is a public utility as defined by S.C Code Ann. § 58-5-10(4) (Supp. 2011), providing sewer services to the customers in the following location in Anderson County:
 - a. The Shoals and Anchor Pointe as approved by the transfer from Shoals Sewer Company in Order Number 2007-869, Docket Number 2007-368-S, dated December 11, 2007 with the approval of the transfer of rates approved by Commission in Appendix A to Order No. 2003-141.

b. The Shoals sewer system is only one system that is owned by the Applicant and does not constitute the entire JACABB Utilities, LLC system. Therefore, other rate increases may be forthcoming, if necessary for Applicant to remain financially viable, meet its regulatory requirements, and provide quality service to its customers.

3. Applicant has experienced increased operating and maintenance expenses due to the age of the plant. Applicant submits that the proposed rate increase is necessary in order for the Utility to continue providing reasonable and adequate service to its customers, cover its expenses, be permitted an opportunity to earn a reasonable return on its investment, and to remain in compliance with standards and regulations set by the South Carolina Department of Health and Environmental Control ("DHEC") or other environmental regulatory agencies. The proposed rates will preserve the financial integrity of the Applicant, promote continued investment in and maintenance of the facility, and thereby permit Applicant to continue providing reliable and high quality sewer service.
4. Therefore, pursuant to S. C. Code Ann. § 58-5-240, Applicant respectfully applies for the approval of a new schedule of rates and charges for sewerage service provided to its residential and commercial customers in areas served. Notice of its intention to file the new schedules was given more than the required thirty (30) days prior to this Application.
5. Applicant proposes a test of year of January 1, 2011 to December 31, 2011 and has prepared certain financial documents relating to that time period in support of the Application, which documents are attached hereto and incorporated herein by

182
#257

the reference as Exhibit A through G. These financial statements include the following:

- a. Exhibit A – PROPOSED SCHEDULE OF RATES AND CHARGES FOR THE SHOALS AND ANCHOR POINT.
 - b. Exhibit B – BALANCE SHEETS DECEMBER 31, 2011 and INCOME & EXPENSE STATEMENTS FOR 2011.
 - c. Exhibit C – PROFORMA INCOME & EXPENSE STATEMENTS
 - d. Exhibit D – CURRENT CUSTOMER BILL FORM.
 - e. Exhibit E – MOST RECENT APPROVAL LETTERS FROM THE SOUTH CAROLINA DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL.
 - f. Exhibit F – DEPRECIATION SCHEDULE BY CATEGORIES OF PLANT OR AVERAGE SERVICE LIVES
 - g. Exhibit G – ANNUAL REPORT FILING ACKNOWLEDGEMENT
6. There is on file with this Commission a performance bond given to satisfy the requirements of S.C. Code Ann. § 58-5-720 (Supp. 2011).
7. The number of customers billed at the end of 2011 was sixty-two (62). Anchor Point is one customer for billing; however there are thirty-six (36) individual units served, which makes the total customer count ninety-seven (97). The Applicant continues to monitor the empty houses and notifies the new owners as they move in.
8. A map depicting Applicants current service areas is on file with the Commission.

182
#3047

9. All PSC annual reports are on file with the Commission in accordance with R.103-512.1.

10. All communication or inquires regarding this Application should be directed as set forth below:

a. Applicant's Representative:

Mr. Stephen R. Goldie
210 W. North Second Street
Seneca, SC 29678
(864) 882-8194
(864) 882-0851 FAX

b. Legal Counsel:

Mr. Steve Eakes
114 West Orr St.
PO Box 1405
Anderson, SC 29622

c. Accountant

Kirk Messick
1426 S. Walnut St.
P.O. Box 773
Seneca, SC 29679

**NEED AND JUSTIFICATION FOR RATE RELIEF
AND RATE SCHEDULE MODIFICATION**

A. During the twelve (12) months test year ending December 31, 2011, The Utility lost two thousand, and ninety-four dollars (\$2,094) at The Shoals and Anchor Point. The Operating Margin is negative (5.09%). After adjustment for known and measurable changes, the loss is \$25,360 and Operating Margin is negative (57%).

B. Due to the age and condition of the plant, the Applicant foresees that high maintenance, upgrade costs and operational fees will continue to rise.

222
#4 of 7

In general, the equipment at the 30+ year old plant is far beyond its life expectancy, and, as result, repairs have been on-going. Some examples are:

- Some of the twenty various blowers, pumps and motors have failed and had to be replaced and / or repaired.
- The step down transformer that supplies power to the plant blew and had to be replaced.
- The blower control panel had to be rebuilt.
- The existing sand filter requires a great deal of operator and maintenance attention because of age and poor design.
- Miscellaneous on-going minor small maintenance and repairs that are present with a very old system.

Also, the fence was significantly damaged by a falling tree and had to be repaired.

In order to perform their duties, the operators have to spend significantly more time to operate and maintain the plant than originally budgeted. Also, analytical costs, gas and costs of living have gone up. Therefore, the contracted operations billed to Jacabb have increased.

- C. The Applicant is currently under contract with Greenstone Construction, LLC for some necessary maintenance and repair items that are scheduled to be completed within the upcoming weeks.

The planned repairs that are needed in order for the plant to remain viable include the following items:

182
#587

- Replacement of the plant blowers for both of the aeration tanks. This will include placing them in a weather proof enclosure to extend life expectancy and reduce maintenance.
- Electrical improvements and repairs to the electrical controls and power supply to the plant.
- Cleaning, patching and painting the existing corroded treatment tanks in order to extend their life expectancy and prevent potential ground water contamination or environmental damage.
- Replace corroded and unsafe grating to reduce potential safety hazards at the plant.
- Install backwash timer on sand filter to reduce operator time and improve filter performance.

This is the first phase of repairs; more repairs are needed in the future in order to achieve a fully functioning and well maintained plant.

The costs and depreciation for these maintenance and repairs are included in the Proforma, Exhibit C.

- D. The Applicant also requests approval of the sections in Proposed Schedule of Rate and Charges Exhibit A: Non-Recurring Charges, Other Charges, and language added to explain and define other conditions.
- E. The increase is necessary for the Applicant to maintain the financial integrity of the utility for proper maintenance, upgrades, and additions on systems that have exceeded their life expectancy; and, to meet the requirements of DHEC or other environmental regulatory authorities.

122
#60F7

Therefore, having fully set forth its application, the Utility prays that the Commission approve the rates proposed and grant to Applicant such other further relief as the Commission may deem just and proper.

Respectfully submitted

Mr. James S. Eakes

PROPOSED SCHEDULE OF RATES AND CHARGES

EXHIBIT A

JACABB Utilities, LLC
210 W. North Second Street
Seneca, SC 29678
(864) 882-8194

The Shoals and Anchor Point

SEWER RATE SCHEDULE

1. MONTHLY CHARGE

	CURRENT RATE	PROPOSED RATE
Residential -- Monthly charge per single-family house, condominium, villa, or apartment unit.	\$35.00	\$68.00
Commercial -- Monthly charge per single-family Equivalent	\$35.00	\$68.00
Anchor Point (36 single-family units)	\$1,260.00	\$2,448.00

The monthly charges listed above are minimum charges and shall apply even if the equivalency rating is less than one (1). If the equivalency rates are greater than one (1), then the monthly charges may be calculated by multiplying the equivalency rating by the monthly charge then in effect.

Commercial customers are those not included in the residential category above and include, but are not limited to, hotels, stores, restaurants, offices, industry, etc.

The Utility may, for the convenience of the owner, bill a tenant in a multi-unit building, consisting of four residential units which are served by a master sewer meter or a single sewer connection. However, in such cases all arrearages must be satisfied before service will be provided to a new tenant or before interrupted service will be restored. Failure of an owner to pay for services rendered to a tenant in these circumstances may result in service interruptions.

2. NON-RECURRING CHARGES

Sewer service connection charge per single-family equivalent.	\$250.00
Plant Impact fee per single-family equivalent.	\$800

EXHIBIT A

The non-recurring charges listed above are minimum charges and apply even if the equivalency rating is less than one (1). If the equivalency rating is greater than one (1), then the proper charge may be obtained by multiplying the equivalency rating by the appropriate fee. These charges apply and are due at the time new service is applied for, or at the time connection to the sewer system is requested.

3. OTHER CHARGES

Notification Fee: \$15.00

A fee of \$15.00 shall be charged each customer to who the Utility mails the notice as required by Commission Rule R.103.535.1 prior to service being discontinued. This fee assesses a portion of the clerical and mailing costs of such notices to the customers creating that cost.

Customer Account Charge: \$25.00

A fee of \$25.00 shall be charged as a one-time fee to defray the costs of initiating service.

Returned Check Fee: \$30.00

A fee of \$30.00 shall be charged for any check that is returned due to insufficient funds.

Reconnection Charges: \$250.00

In addition to any other charges that may be due, a reconnection fee of \$250.00 shall be due prior to the Utility reconnecting service which has been disconnected for any reason set forth in Commission Reg. 103-532.4. Where an elder valve has been previously installed, a reconnection charge of \$35.00 shall be due. The amount of the reconnection fee shall be in accordance with Reg. 103-532.4 and shall be changed to conform with said rule as the rule is amended from time to time.

4. BILLING CYCLE

Recurring charges will be billed monthly in arrears. Non-recurring charges will be billed and collected in advance of service being provided.

5. LATE PAYMENT CHARGES

Any balance unpaid within twenty-five (25) days of the billing date shall be assessed a late payment charge of one and one-half (1½%) percent.

6. TOXIC AND PRETREATMENT EFFLUENT GUIDELINES

The Utility will not accept or treat any substance or material that has been defined by the United States Environmental Protection Agency (EPA) or the South Carolina Department of Health and Environmental Control (DHEC) as a toxic pollutant, hazardous waste, or hazardous substance, including pollutants falling within the provisions of 40 CFR §§ 129.4 and 401.15. Additionally, pollutants or pollutant properties subject to 40 CFR §§ 403.5 and 403.6 are to be processed according to the pretreatment standards applicable to

EXHIBIT A

such pollutants or pollutant properties, and such standards constitute the Utility's minimum pretreatment standards. Any person or entity introducing any such prohibited or untreated materials into the Utility's sewer system may have service interrupted without notice until such discharges cease, and shall be liable to the Utility for all damages and costs, including reasonable attorney's fees, incurred by the Utility as a result thereof.

7. CONSTRUCTION STANDARDS

The Utility requires all construction to be performed in accordance with generally accepted engineering standards, at a minimum. The Utility from time to time may require that more stringent construction standards be followed in constructing parts of the system.

8. EXTENSION OF UTILITY SERVICE LINES AND MAINS

The Utility shall have no obligation at its expense to extend its utility service lines or mains in order to permit any customer to discharge acceptable wastewater into its sewer system. However, anyone or any entity which is willing to pay all costs associated with extending an appropriately sized and constructed main or utility service line from his/her/its premises to an appropriate connection point on the Utility's sewer system may receive service, subject to paying the appropriate fees and charges set forth in this rate schedule, complying with the guidelines and standards hereof, and, where appropriate, agreeing to pay an acceptable amount for multi-tap capacity.

9. CONTRACTS FOR MULTI-TAP CAPACITY

The Utility shall have no obligation to modify or expand its plant, other facilities or mains to treat the sewerage of any person or entity requesting multi-taps (a commitment for five or more taps) unless such person or entity first agrees to pay an acceptable amount to the Utility to defray all or a portion of the Utility's costs to make modifications or expansions thereto.

10. SINGLE FAMILY EQUIVALENT

A Single Family Equivalent (SFE) shall be determined by using the South Carolina Department of Environmental Control Guidelines for Unit Contributory Loading for Domestic Wastewater Treatment Facilities – 25 S.C. Code Ann. Regs. 61-67 Appendix A (Supp 2011), as may be amended from time to time. Where the Utility has reason to suspect that a person or entity is exceeding design loading established by these Guidelines, the Utility shall have the right to request and receive water usage records from the provider of water to such person or entity. Also, the Utility shall have the right to conduct an "on premises" inspection of the customer's premises. If it is determined that actual flows or loadings are greater than the design flows or loadings, then the Utility shall recalculate the customer's equivalency rating based on actual flows or loadings and thereafter bill for its services in accordance with such recalculated loadings.

Independent Accountant's Compilation Report

Stephen Goldie, Member
Jacabb Utilities, LLC
Seneca, South Carolina

I have compiled the accompanying balance sheet of The Shoals Wastewater Utility (a component unit of Jacabb Utilities, LLC) as of December 31, 2011, and the related statements of income and changes in member's equity for the year then ended. I have not audited or reviewed the accompanying financial statements, and accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

The member is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

My responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements.

The member has elected to omit substantially all of the disclosures and the statements of cash flows required by accounting principles generally accepted in the United States of America. If the omitted disclosures and the statement of cash flows were included in the financial statements, they might influence the user's conclusions about the utilities financial position, results of operations, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

Re: JACABB Utilities, LLC - 2011 Annual Report

Dear Mr. Goldie:

This is to acknowledge receipt of your 2011 Annual Report information dated April 4, 2012 to update the requirements of the data that is required to be filed with the Public Service Commission of South Carolina (PSC). R. 103-712.1 and R. 103-512.1 (for water and wastewater) of the Regulations require each utility operating in the State to file an annual report giving accounting, and other information as the PSC directs. Thank you for your submission.

If you have any questions regarding this matter please call me at (803) 737-0898 or Mr. Willie Morgan at (803) 737-0827.

Sincerely,

Hannah Majewski
Water/Wastewater Specialist
